To Ash/ Willow Reception

Ahoy my crew! I am writing to you very quickly today, as I have followed your maps and they have sent me directly into the path of what Beaky and I believe may be a sea monsters lair! I will send you a picture of the strange looking cove. We are a bit afraid of what might be inside. Can you imagine what the creature might look like? Draw a picture and write a description for us; remember to start at its head and work your way down so that we can picture your ideas.

Beaky and I will wait until you've sent us your descriptions before we creep inside. They will help us prepare ourselves! I have given Mrs Long a special poster that you can wr[illegible]m on, shhhhhhhhhhhhh.
